

## NEW DATA PRIVACY REGULATIONS

### UPDATING YOUR MEMBERSHIP CONSENTS

Many members will have received communications from organisations with whom they are registered, re updating their data and privacy settings with the new General Data Protection Regulations, which came into effect on 25th May. These new regulations strengthen the current Data Protection Act. A key feature is that **consent can no longer be assumed - members have to positively opt in** to certain features of the processing and use of their data.

The club's Data Privacy Policy is now on the publications page of our web site - see [here](#).

All members were e-mailed on 22nd May, asking them to update their data consents. So far, just over 300 have done so - and over 200 haven't. **Please update your options** in terms of us holding your data, communication options, lists of members, and photography. I'd really appreciate members doing this themselves - I've processed the data for around 250 members, and would hope not to do many more!

Log into WebCollect [here](#), and click on "Access Your Account". Log in with your e-mail address (the address on which you received LSC e-mail), and your password. This will take you to a screen (see right) that has a box on the right hand side entitled "My family/group". This has several links on the bottom.
